PROFESSIONAL EXPERIENCE

Frontend developer Intern Remote
Lizard Global, Rotterdam
October 2022

- Built functional front-end pages like the Testimonial section and Service page using HTML, CSS, SASS, JavaScript and ReactJS.
- Implemented refactoring of the entire frontend codebase by updating from Gatsby to NextJS, which led to better SEO optimization for the company's site.
- Architected and defined Front-end framework to solve complex designs and interactions that reflect the creative and art direction provided by the Product Designer while serving as lead developer
- Worked in a functional and goal driven team of 2 developers, 1 designer, marketing team and a project manager to achieve design goals and ultimately to the company's goals.
- Participated in scoping and planning the project for optimal results.
- Served as a thought leader in Front-end technologies and space.
- Actively participated in the Agile development process through Scrum and Sprint methodologies.
- Technologies: Javascript, React.js, Next.js, Gatsby.js
